

VetriScience® is a brand belonging to FoodScience® in Vermont, USA.

VetriScience® is dedicated to providing veterinarians, pet owners and pets with advanced support for common animal health concerns.

VetriScience® supplements are made in a SQF certified facility and manufactured in the U.S.A with the highest quality ingredients sourced globally.

Setting The Standard

VetriScience® has been an innovator and pioneer in the animal health industry for nearly 40 years. In 1981, VetriScience® launched GlycoFlex® as the first commercially available glucosamine supplement for dogs. Today, VetriScience® maintains a comprehensive lineup of efficacious products and continue to push the boundaries when it comes to quality, research and innovation.

Developed By Veterinarians

VetriScience® utilizes veterinarian feedback to improve and expand their line of supplements. Their products are developed through extensive research, clinical testing and collaboration with leading-edge veterinarians. VetriScience® continues to underwrite university studies that exemplify the safety and efficacy of their products.
